

PRESS RELEASE

The external 3.5” hard disk by takeMS

– Storage giants with up to one terabyte

The external 3.5 inch hard disk mem.line by takeMS is perfect for backup and any saving tasks. eSATA ensures fast transfer rates.

Breisach, January 20th 2009 – The takeMS International AG carries on the successful mem.line hard drive series with the 3.5” hard disk. The mobile and preformatted USB 2.0 drives are suited for stationary use at work just as much at home. With up to one terabyte they offer storage capacity for the entire content of the internal hard disk. The takeMS 3.5” mem.line can be positioned horizontally or vertically and therefore finds a spot on or under every desk. Data transfer rates reach up to 70 MB/s thanks to eSATA. Rotation speed is at characteristic 7200 rotations per minute and ensures high performance. Data exchange between PC or MAC and the external hard disk works quick and easy via Plug & Play. The 3.5” mem.line works almost noiseless and does not need additional ventilation. The shock-resistant aluminium case protects data from external influence. It is available with 500, 750 and 1000 GB.

Technical features:

- » USB 2.0 supported
- » data exchange via eSATA standard and USB
- » 3.5" - dimensions: 195*111*35 mm
- » weight: 834-1094 gram (depending on capacity)
- » 7200 rpm for high performance
- » data transfer of up to 70 MB/s (via eSATA) and up to 35 MB/s (via USB)
- » aluminium case
- » without ventilator for noiseless work

- » placeable horizontally or vertically
- » supports: NFTS / FAT32 (FAT preformatted)
